Contents of Volume 129

Research Articles

B. Egan, A. Vlasto and C. Yarish (U.S.A.)
Seasonal acclimation to temperature and light in *Laminaria longicruris* de la Pyl. (Phaeophyta) 1

H. Claustre, J.-C. Marty and L. Cassiani (France)
Intraspecific differences in the biochemical composition of a diatom during a spring bloom in Villefranche-sur-Mer Bay, Mediterranean Sea 17

R.G. Weich and E. Granéli (Sweden)
Extracellular alkaline phosphatase activity in *Ulva lactuca* L. 33

J.A. Calahan, S.E. Siddall and M.M. Luckenbach (U.S.A.)
Effects of flow velocity, food concentration and particle flux on growth rates of juvenile bay scallops *Argopecten irradians* 45

D.G. Worthington and P.G. Fairweather
Shelter and food: interactions between *Turbo undulatum* (Archaeogastropoda: Turbinidae) and coralline algae on rocky seashores in New South Wales 61

B. Wolfrath and D. Barthel (F.R.G.)
Production of faecal pellets by the marine sponge *Halichondria panicea* Pallas (1766) 81

K.D. Grande, J. Marra, C. Langdon, K. Heinemann and M. Bender (U.S.A.)
Rates of respiration in the light measured in marine phytoplankton using an ^{18}O isotope-labelling technique 95

C.G. Attwood and W.T. Peterson (South Africa)
Reduction in fecundity and lipids of the copepod *Calanus australis* (Brodskii) by strongly pulsed upwelling 121

E. Yoshioka (Japan)
Phase shift of semilunar spawning periodicity of the chiton *Acanthopleura japonica* (Lischke) by artificial regimes of light and tide 133

C.R. Wylie and V.J. Paul (U.S.A.)
Chemical defenses in three species of *Sinularia* (Coelenterata, Alcyonacea): effects against generalist predators and the butterflyfish *Chaetodon unimaculatus* Bloch 141

F. Sardà, M.L. Cros and B. Sesé (Spain)
Ca balance during moulting in the prawn *Aristeus antennatus* (Risso, 1816): the role of cuticle calcification in the life cycle of decapod crustaceans 161

J.E. Eckman, D.O. Duggins and A.T. Sewell (U.S.A.)
Ecology of understory kelp environments. I. Effects of kelps on flow and particle transport near the bottom (U.S.A.) 173

R.E. Olsen and R.J. Henderson (Norway, U.K.)
The rapid analysis of neutral and polar marine lipids using double-development HPTLC and scanning densitometry 189

M. Harvey and B. Vincent (Canada)
Spatial and temporal variations of the reproduction cycle and energy allocation of the bivalve *Macoma balthica* (L.) on a tidal flat 199

S. Tugwell and G.M. Branch (South Africa)
Differential polyphenolic distribution among tissues in the kelp *Ecklonia maxima*, *Laminaria pallida* and *Macrocystis angustifolia* in relation to plant-defence theory 219

CONTENTS OF VOLUME 129

M. M. B. Talbot and G. C. Bate (South Africa)
Beach morphodynamics and surf-zone diatom populations 231
C. P. Mangum and J. Ricci (U.S.A.)
The influence of temperature on O_2 uptake and transport in the horseshoe crab *Limulus polyphemus* L. 243
D. H. Spaargaren (The Netherlands)
Adaptation to estuarine conditions in shore crabs *Carcinus maenas* (L.) in relation to body size 251
H. V. Vreeland and H. R. Lasker (U.S.A.)
Selective feeding of the polychaete *Hermodice carunculata* Pallas on Caribbean gorgonians 265
O. Hoegh-Guldberg and G. J. Smith (U.S.A.)
The effect of sudden changes in temperature, light and salinity on the population density and export of zooxanthellae from the reef corals *Stylophora pistillata* (Esper) and *Seriatopora hystrix* (Dana) 279
